## Fixed Structure Datasheet

### MAIN FEATURES

Model	RACKSMART
Product type	Fix tilt structure
Structure configuration	Single and dual-post
Solar modules configuration	Landscape or portrait
Configuration	2P, 3P, 4L, 6L & fully adaptable according to customer needs
Supported modules/cells	Monofacial, Bifacial, Thin-film / M10, M12 and other cells
Bifacial adaptative	Fully compatible maximizing rear side production
Ground adaptability	Fully adaptable
Foundation type	Direct ramming, pre-drilling and concrete footing
Module mounting type	Bolts or clamps with integrated grounding
Steel Coating	HDG steel & Magnelis® or similar Fasteners: HDG 8.8 quality, Stainless Steel, ZN-PI
Standard corrosion protection	According to ISO 12944-2
Design codes	International Standards: Wind tunnel Test & CFD
Engineering	PE stamped drawing and calculation

### SERVICES PACKAGE

Pull-out test  
Training  
Technical assistance

### WARRANTY

Structural components  
10 years  
Product warranty extension  
Available

### SMARTCARE AFTER-SALES

Operation & Maintenance  
International spare parts hubs  
Technical training

### CERTIFICATIONS

IEC 62817 / CE  
Wind Tunnel Tested
